COMMUNIST MEMBER OF PARLIAMENT HAS BEEN BARRED FROM U.S.

COPS MUST DRESS UP
Washington, Sept. 17.—"Be neat" was the order which went out today from police headquarters to policemen engaged in prohibition enforcement work.
It was stated that many officers were appearing in court in slovenly condition and were exciting unfavorable comment.
The officers, according to the order, "appear in court with soiled and sweaty shirts, collars turned in at the necks and, in general, present such an unkempt appearance as to embarrass prosecuting officials."

UNIFORM TAX LEAGUE RAPS AMENDMENTS TO OHIO CONSTITUTION

Chamber of Commerce
However Approves
Both Issues

Columbus, Ohio, Sept. 17.—Resolutions declaring that the proposed debt limitation and "classification" amendments to the Ohio constitution, to be voted upon at the November election, are respectively a "bait" and a "hydra-headed monster," were adopted at a meeting here of members of the Uniform Tax League of Ohio, it was announced today.

On the other hand, directors of the Ohio chamber of commerce at a meeting here approved both these proposals together with the proposed state constitutional amendment, extending terms of office.

The resolutions adopted at the uniform tax league meeting assert that "this tax humbug" is "the same old scheme to let owners of intangible wealth escape paying a fair share of the cost of the government that protects him."

The proposed debt limit amendment, the resolutions continue, "is but a bait to capture votes for the 'class tax' amendment. It is a sham, pure and simple, because it does not limit public debt, does not limit the tax rate, and we now have a debt limit statute. Why write into the constitution what is already in our statute?"

The Ohio chamber of commerce directors arranged for appointment of a committee to confer with agricultural and other organizations relative to the proposed amendment of a state police system. President L. B. Palmer, Ohio farm bureau federation; President Harry A. Caton, Ohio grange and C. F. Michael, Bucyrus, were elected directors.

SCOTTISH RITE IN ANNUAL CONCLAVE

Pittsburgh, Pa., Sept. 17.—Members of the supreme council Sovereign Inspectors General of the Thirty Third Degree Scottish Rite Free Masons, from various Masonic councils throughout the United States, entered the final session of their annual convocation this morning.

Supreme Grand Commander Leon M. Abbott, of Boston, was the guest of honor at a banquet here last night attended by 1,300 Masons, their wives and guests.

Seven hundred thirty third degree Masons, approximately one fourth of the total number in the United States attended the banquet at the William Penn hotel last night.

Among the 85 candidates from 14 states who were recipients of the thirty third degree during the session here was Charles F. Taft, of Cincinnati, older brother of former President William Howard Taft.

COLUMBUS LAWYER DIES ON WEDNESDAY

Columbus, Sept. 17.—Funeral arrangements were being made today for the late Charles C. Pavey, 68, prominent local attorney, whose death due to cerebral hemorrhage, occurred at his home here late Wednesday. Survivors include his widow, Mrs. Eva Grove Pavey, and a son, Ralph M. Pavey, Athens.

Attorney Pavey's father, Madison Pavey, also an attorney, was prominently identified with the development of the southern Ohio coal industry.

REST OF DELEGATION PLEASED WITH ACTION TAKEN BY SECRETARY

Banned Delegate Is Indignant—Will Not Be In Party.

London, Sept. 17.—"Is America afraid of the truth?"

Shapurji Saklatvala indignantly shot this question at interviewers today, just after he had received official notification that the United States would not permit him entrance to attend the interparliamentary union, on grounds that he is an undesirable agitator.

"So that is free America, is it?" said the little parsee communist member of the British house of commons, his eyes flashing with fire, as he crumpled the official notification handed to him by an American consul.

"Well you can tell your people that I won't attempt to enter their country," continued Saklatvala. "I won't try to go with the delegation to the Washington conference when it leaves on Saturday, although I understand that some of the delegates have been fearful that I might go with them to Canada and then try to secretly cross the border into the United States. I won't go, but I would like to know if America is afraid of the truth."

London, Sept. 17.—While members of the British delegation to the interparliamentary union meeting to be held in Washington were openly gleeful over the action taken by Secretary of State Kellogg in barring Shapurji Saklatvala, communist M. P., from entering the United States, the British government was giving silent approval to the action.

Meanwhile radical circles in Great Britain were making the United States government the object of attacks. "The United States decision to ban Saklatvala gives me great pleasure and relieves me of great embarrassment," said Sir Robert Horne, M. P., former chancellor of the exchequer and a member of the British delegation to the interparliamentary union. "I am glad that the United States has taken this action of its own initiative and that it is a lesson to the constituency who elected Saklatvala and make them ashamed of having sent a man to parliament who cannot be received by a friendly government."

Sir Robert Bird, who had announced that he would cancel his plans to attend the interparliamentary union because of Saklatvala's intention of attending, now announces that in view of the action taken by the United States, he will go to Washington. J. Ramsay MacDonald, former labor premier, and Arthur Henderson, former labor home secretary, refused to comment upon the action taken by the United States. In some circles it was believed that, although no official action had been taken, it is possible the British government had dropped an informal hint to the United States that the barring of Saklatvala would relieve Great Britain from an embarrassing position.

BUSINESS BLOCK IN AKRON IS DESTROYED

Akron, O., Sept. 17.—The Guth block in the heart of the downtown district, and several stores therein, were damaged to the extent of a quarter of a million dollars this morning by fire which started in the rear of the Pettit Brothers Hardware store. Other firms suffered heavily from water and smoke. The Pettits estimate their loss at \$50,000; Hub Shoe store \$50,000; J. Harry Wiener, owner of the block \$50,000 and many smaller losses.

The flames were discovered by a pedestrian on his way to work at five o'clock. They were under control an hour later.

TWO PARTICIPANTS IN MURDER AT HOTEL SENTENCED TO DIE

Record Established In Quick Conviction Of Bandits

Chicago, Sept. 17.—Joseph Holmes and James Wilson, alias Jack Woods, two of five bandits who two months ago participated in a holdup of the fashionable Drake Hotel here, must hang for the killing of Frank B. Rodkey, cashier of the hotel.

A jury in criminal court so decided shortly after 4 o'clock this morning, after nine and one half hours deliberation during most of which the jury was deadlocked by two jurors who held out for life imprisonment.

The holdup of the Drake, in the heart of the gold coast district, took place on July 29. Rodkey was shot to death by Holmes when he smiled at the bandit's boast that he was a bad man and a killer.

One of the bandits, Texas Court, was shot to death by police as he was fleeing from the hotel and another, Erik Nelson, was slain after a six mile chase through parks and boulevards. The only one to get away was William Mellenschuck, alleged leader of the band, who carried most of the \$14,000 loot.

The defense of Holmes and Wilson was that both were feeble minded and under the influence of moonshine neither denying the holdup.

Sentencing of the pair to the gallows seven weeks after the crime and after a trial of only ten days was regarded as a record in Cook County.

AMERICANS THRIFTY AND BECOMING MORE SO REPORT NOW SHOWS

Savings Increasing and Commercial Failures Decreasing

Washington, Sept. 17.—Americans are becoming thrifter and thrifter—all warnings about "spend-thrift America" to the contrary notwithstanding.

Figures made public today by the federal reserve board prove it. They disclosed that in 992 principal banks on August 1, savings accounts amounted to \$7,993,000,000, a gain of more than half a billion dollars over August 1, 1924, or nearly \$5 for every man, woman and child in the country.

The figures disclosed, however, a drop of about \$76,000,000 from the previous months figures, but board officials attributed this to the fact that July is "vacation" month, and estimated that eighty percent of the withdrawals were made for vacation purposes, affording an interesting insight into the annual American vacation bill.

The American people far surpass all other peoples in their savings, according to figures compiled by the reserve board.

Speaking of the decline during July the board said:

"As is usual at this vacation season, following the crediting of accrued interest at the midyear, small declines in deposits occurred in nearly all federal reserve districts.

"All districts however, showed increases over August 1, 1924, varying from four percent in Chicago to eleven percent in San Francisco."

For the United States the percentage increase was seven percent. It was explained that for the entire country figures are considerably higher than shown by the board.

In Boston and New York, figures represent only deposits of mutual savings banks, but in other district savings deposits of other banks are included.

The New York district led the country with thirty banks reporting savings deposits of \$2,095,000,000 August 1. Boston took second with \$1,324,210,000 and San Francisco third with \$1,115,638,000.

Another favorable aspect of the general economic situation was the decline in both commercial failures and liabilities during July. Insolventcies numbered 1,685 with debts amounting to \$34,505,000 were announced. The aggregate indebtedness was six percent under the figure for July 1924.

Commercial failures included 1,184 trading concerns, with liabilities of \$15,961,000, 418 manufacturing plants with liabilities of \$10,931,000 and eighty-three agents and brokers with \$7,612,000 debts.

The number of bank suspensions likewise declined in July, the total having been lower than for any month in 1924 or 1925. During July twenty five banks with capital and surplus of \$1,054,000 closed their doors as against thirty two in the preceding month and fifty in July 1924. Of the bank suspensions three were national banks.

The bank failures were most numerous in the Minneapolis district where eight institutions collapsed. In the Chicago and Kansas districts four banks closed their doors. Richmond had three banks failures, Dallas and St. Louis two and Cleveland and Atlanta one each.

WILL ELECTROCUTE ALLEGED SLAYER

Columbus, O., Sept. 17.—Final arrangements were being made today for the electrocution early Friday morning of Calvin Walters, 30, colored, who has confessed that he murdered Alvin A. Stock, San Toy storekeeper, because Stock had been instrumental in having Walters arrested on bootlegging charges. Walters claimed he had not been bootlegging.

In making his confession, Walters expressed belief that he was "right with God."

PAIR ADMITS SERIES OF THEFTS IN NORTHERN OHIO; TOOLS FOUND

Akron, O., Sept. 17.—Grover Cradbaugh, 32, and George R. Nesselrotte, 31, alleged safecrackers, were taken to Nelsonville, O., today to be arraigned on a charge of robbing the Nelsonville Lumber Company of about \$300 on September 2.

Cradbaugh at first insisted that he knew nothing about the numerous recent robberies here and in other Ohio cities but under a severe grilling, finally admitted three jobs in which he had been previously implicated in Nesselrotte's confession.

The men are said to have admitted robbing the B. M. Thomas Coal Company office of \$244 on August 28; the Nelsonville job and another at Loudenville, Ohio. They also are suspected of tapping a safe in the Bero Dry Goods store at Mansfield in August. If the Nelsonville case falls through they will be brought back here to face charges of entering Akron stores and obtaining at least \$30,000 in the last few months. They deny the Mansfield and large Akron jobs, but police say they have sufficient evidence to connect them with the thefts in both cities. It is expected they will be indicted by the local grand jury regardless of what happens to them in Nelsonville and these indictments will be brought to trial or held over them if they are convicted in Nelsonville.

When police searched their homes, they found many burglar tools, and one instrument known as the "old man," used in pulling the combination from safes.

Both prisoners are married. Though Cradbaugh has been out of the penitentiary only about a year, he is paying on a home, owns a five ton truck and apparently is living far beyond the income usually enjoyed by a truck driver police say.

Nesselrotte is a bus driver.

Woman Holds Wheel as Auto Turns Over 3 Times

Cleveland, O., Sept. 17.—With only a cut knee and minor injuries today to remind her of "shaking hands with death," late yesterday, Mrs. Mary E. Black, known to radio fans as a soprano singer whose songs have been broadcast by station WKYC was back on her job as secretary of the Lederer Terminal Warehouse Company.

While parking her coupe yesterday afternoon her car suddenly became unmanageable, backed down a steep hill, then dropped twenty feet down an embankment to a stone drive. The car turned completely over three times during the descent but when bystanders reached her the woman was still at the wheel.

She was taken to a hospital where her injuries were dressed, then went home.

BASEBALL BAT USED AS LETHAL WEAPON BY CLEVELAND MAN

Cleveland, O., Sept. 17.—Joseph Maconesta, 28, steel worker was beaten to death with a baseball bat today as he stooped to roll a cigarette.

Michael Kuzo, 11, gave police an eye-witness story of the murder which he said was committed by his father, Harry Kuzo, 35.

"Father wouldn't work. My uncle and father had quarrelled over it," Michael said. "Uncle came home from work and bent over to roll a cigarette. Father came up behind him and hit him with my baseball bat. Then when uncle fell, father hit him twice more on the back of the head. Uncle didn't move anymore."

The boy told police his uncle had saved him from a flogging at the hands of his father many times.

Kuzo, held in the murder, denies guilt.

His boy will be the chief witness against him.

DAYTON COMPANY IS AWARDED CONTRACT FOR STREET PAVING

The Roth and Janney Company, Dayton, with a bid of \$22,565.81, was awarded the contract for construction of Limestone Street, in Jamestown, it was announced Thursday by County Commissioners.

Bid of the Dayton company was the only one received.

Work of building the street will be begun next week despite a petition signed by citizens of the village filed with the board protesting against the start of the remodeling work this fall.

Asking that work be deferred until the spring of 1926 when the weather would probably be more settled, the petitioners claimed that "tearing up the street this winter would greatly inconvenience property owners and the public."

Commissioners in refusing to allow the protest pointed out that only part of the work which could be finished this fall, would be started Jamestown citizens will therefore not be inconvenienced, it is said.

CAESARCREEK WANTS EXTRA SCHOOL LEVY

A resolution adopted by the board of education of Caesarcreek Township, voters of the township will be asked to approve an extra one mill tax levy for two years at the November elections, it is announced by Earl Short, clerk of the board of elections.

The resolution claims an insufficient amount of taxes can be raised at the maximum rate authorized by law for school purposes and that it is necessary to levy additional taxes to meet current expenses.

Only two other extra tax levy measures to be placed before voters in November have been filed with the election board.

The board of Education of Xenia Township School District is asking support of a three mill levy for five years and a similar levy is desired by the Bath Township Consolidated Rural School District.

CHILD IS ATTACKED

Cincinnati, O., Sept. 17.—Edna, 14 year old daughter of Donald Bosworth, North Bend, O., tenant farmer was found dying in a thicket near her home by a searching party late Wednesday, after she had been criminally attacked and beaten with a weapon. Cincinnati police arrested a negro suspect early this morning.

SPARKS FROM RAILS BLAMED FOR BLAST; THREE ARE INJURED

Lives Of Seventy Are Imperilled—Police Now In Charge

Wheeling, West Va., Sept. 17.—Sparks from charged rails are believed to have been responsible for the explosion of powder two miles down in the Triadelphia mine of the Elm Grove Mining Company last midnight that killed two miners, injured three others and imperilled the lives of seventy more working in the mine. The explosion was that of twenty-five cans of powder, in process of being distributed to miners from mine cars.

The dead:

Rock Sande, 35, married of Triadelphia, mine motorman.
William Kimble, 30, of Cambridge, O., brakeman.

The injured:

Ross Baker, 28, married, Triadelphia.
Sidney Pritchard, 45, Elm Grove.
Clifford Dixon, 28, Elm Grove.

The injured are in a hospital and are not yet out of danger. Quite a number of miners overcome by powder fumes were carried out and given emergency treatment at the mine entrance.

State police today are on duty at the mine, while a double probe was started this morning by A. E. Lafferty, district mine chief of the state department of mines and Coroner R. G. Hobbs.

The concussion following the blast of powder is said to have been terrific and several heroic rescues of miners followed the explosion. The fact that the air currents were not interrupted, facilitated the rescue.

BISHOP HENDERSON OPENS SESSIONS OF M. E. CONFERENCE

Methodist Episcopal church here. A business session, lasting until noon, followed. About 150 clergymen are attending the conference.

A sermon was delivered at the close of the morning session by Rev. Dr. John C. Jackson, Portsmouth.

The Ohio conference laymen's association opened its annual sessions here today. The junior laymen's association will meet Friday.

An address by Mrs. Collins Brock will feature the program to be given this afternoon by the women's home missionary society. This program will be followed by one, to be given under the auspices of the women's foreign missionary society, during which Mrs. R. L. Thomas is to speak.

Bishops William F. McDowell, Washington, and Matthew W. Clair are scheduled to take addresses and music will be given by the girls or chorale, Worthington Orphans Home tonight.

Dr. John G. Benson, superintendent of the White Cross hospital, Columbus, and Dr. C. S. Woods, superintendent of St. Lukes hospital, Cleveland urged financial and moral support of these institutions.

Bishop McDowell told the preachers to use new methods and original ideas in their work. Rev. L. C. Sparks, superintendent of the Lancaster district, urged higher salaries for clergymen because of increased living costs.

RESIDENT OF XENIA DIES IN COLUMBUS

Miss Johanna O'Connell, life-long resident of Xenia, died in Columbus where she had been receiving treatment, Wednesday night, according to word received by relatives. The body was brought to Xenia Thursday, in charge of Funeral Director R. M. Need.

Miss O'Connell was stricken with paralysis six years ago and was taken to Columbus nineteen months ago. She is survived by two brothers, Daniel and John O'Connell, both of Xenia.

Funeral services will be held at St. Bridget's Catholic Church Saturday morning at 8:30 o'clock, with interment in the Catholic cemetery.

ATLAS HOTEL SOLD; DAYTON RESTAURANT OPERATOR NEW OWNER

Purchase of the Atlas Hotel, South Detroit Street, from David Barrar, of Dayton, was announced Thursday by Walter Dorrien, former Dayton restaurant owner. The consideration involved was not announced.

Barrar, a member of the firm of the Eagle Motor Company, of Dayton purchased the hotel less than a month ago from Ralph Mangan this city.

Mangan was proprietor of the hotel for nearly two years. He has made no business plans for the future.

Dorrien, the new owner, was formerly proprietor of a restaurant combined with the Antler Hotel in Dayton, and was also connected with the Hotel Gibbons in Dayton. He has gained wide experience in the hotel and restaurant business. Milton Mack, step son of Dorrien, will assume active management of the hotel.

The name of Atlas Hotel will be retained, it is announced. The new owner is also outlining plans for remodeling work in the building. No change of policy will be made but popular \$1 a day rates will be introduced, it is announced.

The hotel has changed ownership five times during the past two years.

XENIA KIWANIS GIVEN ATTENDANCE PRIZE AT MEETING

First prize in the attendance contest being conducted at the eighth annual conference of Kiwanis clubs of the Ohio district in Dayton was Wednesday awarded to the delegation of members from the Xenia Kiwanis Club, it is announced. The Xenia club was the winner of first place by having the largest percentage of members representing this club at the convention from the first zone.

Winners of first prizes in the remaining four zones in the state follow: Second zone, Ottawa; third zone, Wooster; fourth zone, Martins Ferry; and fifth zone, Girard.

The entire delegation of Kiwanis attending the conference was taken on a tour of inspection Wednesday to the Huffman dam of the Miami conservancy district, the new Wright flying field under construction near Osborn and the Fairfield Intermediate Depot at Fairfield.

TO VISIT SCHOOLS

Mr. Richison, Columbus, who is taking the place of Ray Fife, of the Smith-Hughes Vocation Training Department of the state, will be in Greene County Friday.

He will confer with H. C. Aultman, county superintendent of schools and visit Ross and Alpha schools. He will inspect the general work of the local departments with a view of possibly establishing another department in the Greene County School.

Most Powerful Car of Its Size and Weight

—a One-Profite Value

THERE are (as you probably know) only two manufacturers who actually build their cars complete—make all their own bodies, engines, clutches, springs, gear sets, differentials, steering gears, axles, gray iron castings and drop forgings.

One of these is Ford—in the low priced field. The other is Studebaker in the fine car field.

This one-profit principle of manufacture makes possible four great advantages.

1. It eliminates the extra profits and overhead that many other manufacturers have to pay and include in the purchase price to you. This keeps Studebaker prices low.

2. It enables us to build a better car because the vital parts are designed, engineered and manufactured complete by one organization. Being built as a unit—Studebaker cars function as a unit, with all of the advantages of unit over assembled construction.

3. It makes possible finer quality because Studebaker, being an independent manufacturer, with no subsidiary or allied companies to favor, is free to buy on the open market, demanding the finest materials at the lowest possible price. Studebaker purchasing agents are unrestricted in their search for quality and value. Studebaker designers and engineers are unhampered by outside interests.

4. And, finally, because of these one-profit savings, Studebaker is able to offer you a sturdier, more substantially built automobile. We pay a premium for the finest steel. We use hard wood in body construction. Plate glass in the windows. The finest grades of upholstery. Genuine full-size balloon tires. Unusually fine interior trim with no exposed tacks, and heavy hardware. Throughout the entire car—in hundreds of hidden places—you find the same high quality of materials and workmanship that you see out in the open.

The Standard Six Coach shown below is a splendid example of One-Profite value.

It offers greater power than any other car of its size and weight, based upon the rating of the National Automobile Chamber of Commerce. And luxurious riding comfort made possible by the big balloon tires, resilient springs, comfortable cushions and ample roominess.

But the only way to judge this car is see it—drive it! Feel the luxurious upholstery. Sit in the deep, soft, comfortable seats. Experience the surge of its tremendous power. And then compare it with other coaches.

The recent Studebaker price reduction and policy of "no yearly models" only serves to emphasize the logic of this reasoning.

If you seek a bargain in a quality car—by all means see this One-Profite Coach.

CONSERVATIVE SOCIETY

ON THURSDAY AFTERNOON

Attired in an attractive costume of Gracienese style, Miss Mary Devoe, became the bride of Mr. Jack Rowe, of Cincinnati, formerly of this city, with informal ceremony at her home on South Columbus Street, Thursday afternoon at 4 o'clock.

The service was witnessed by members of only the two immediate families, numbering about twenty-five. The vows were read in the bow window of the living room, the Rev. V. F. Brown, pastor of Trinity M. E. church officiating. The single ring ceremony was used.

The bride was charmingly outfitted in the gown of blue with a corsage of bride's roses. The attendants were Mr. and Mrs. Howard Devoe, Mrs. Devoe wearing a rock of fawn satin. Bouquets of garden bloom were placed throughout the rooms and banked the nook where the ceremony took place. Refreshments were served after the service.

Mr. and Mrs. Rowe left Thursday afternoon on their wedding trip through the East. They will make their home in Chillicothe, O., on their return, where Mr. Rowe is secretary of the Automobile Club.

Before leaving, Mrs. Rowe presented her bridal bouquet, which was fashioned in two parts, to her mother and the mother of the bridegroom. Her traveling costume was a white flannel sport suit with a hat in pansy shade.

Mrs. Rowe has taught for several years in the Xenia Public Schools. She attended school at Oxford and Ohio University. She is the eldest daughter of Mrs. A. J. Wilson.

Mr. Rowe attended Ohio Northern University and is a member of Phi Delta Kappa Fraternity.

P. T. A. DRIVE IS

PLANNED AT MEETING

To obtain funds for food and equipment for the Opportunity School the Federated Parent-Teacher Association will stage a one-day drive next Thursday, according to plans laid at the meeting in Central High Auditorium Wednesday afternoon.

The drive will be staged along the same lines as a similar campaign of the association last year. Then, \$1,000 was obtained for the special school.

Members of the Association will canvass the entire city to obtain funds. A quota of \$1,500 has been set to supply the needs of the Opportunity School. Another meeting of the Federation will be held Friday afternoon to formulate plans for the drive.

Mrs. J. H. Benbow, president of the Federated P. T. A., has been appointed delegate to the state convention in Cincinnati, October 7, 8 and 9. Mrs. Benbow and Mr. J. J. Stout, candidates for positions on the Xenia City School Board, have been endorsed by the Federation.

ALPHA CLUB IS

RE-ORGANIZED FOR YEAR

Alpha Community Club was re-organized Friday when members were called together by the president Mrs. A. L. Thompson. Officers for the ensuing school year are:

President, Mrs. Leroy Ankeney; Vice President, Mrs. George Sugden; Secretary, Mrs. S. Coy and Treasurer Mrs. James Coffman.

The Alpha School was among the first to sponsor "Weekday Religious Training" having most successfully carried on the work the previous year. Arrangements have been made by which the club will have the training course this year.

An appeal is made to all members and everyone of the community to take an active interest in the club work.

Miss Mildred McKay and Mr. Roy Peterson of the Wilmington Pike, have matriculated at Wilmington College for the fall term.

RIFFIAN PRESSURE

ON SPANISH WEAKER

Mellilla Morocco, Sept. 17 — Riffian pressure along the Spanish western front was weakening today with the Spanish showing a stiffened resistance under the command of General Nouvilas, who has arrived to take charge of the defense.

News of the fall of Bibane before the French in the eastern zone added encouragement to those watching progress of the Franco-Spanish campaign.

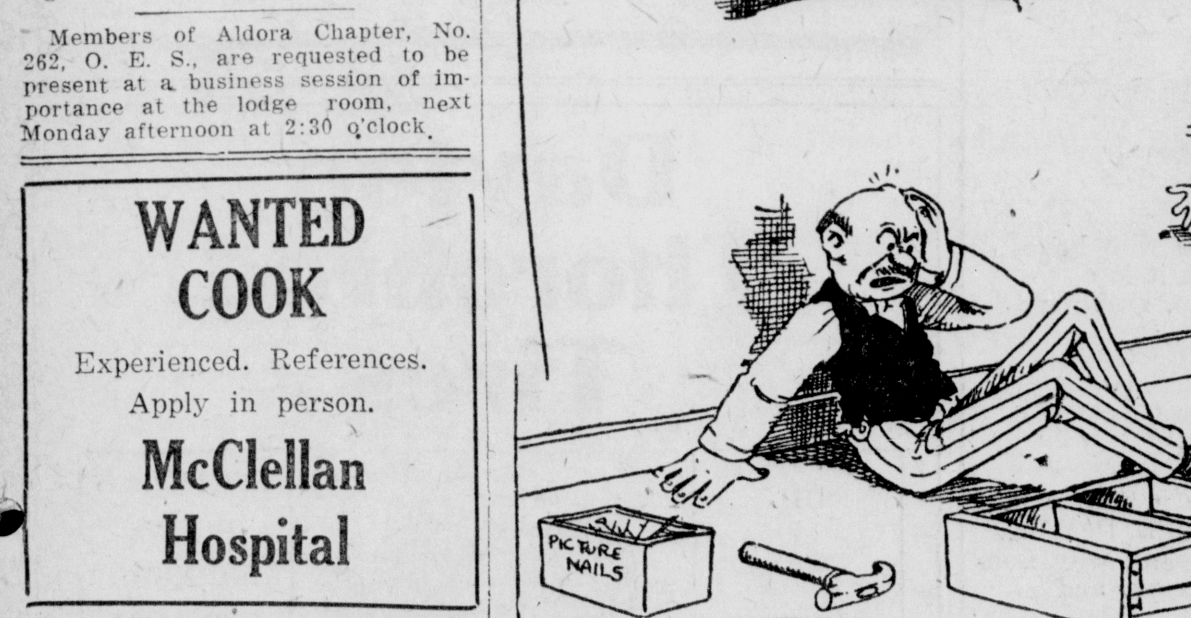

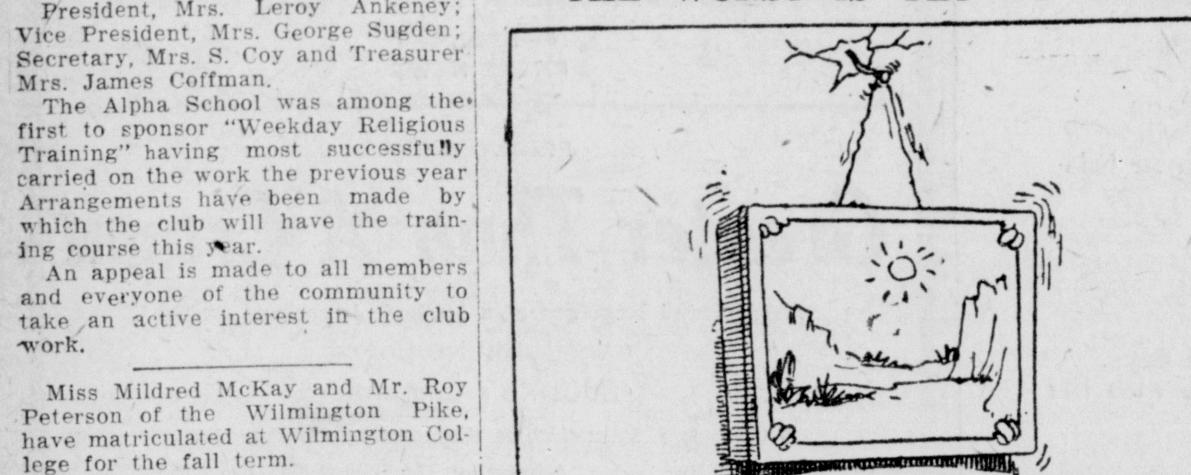

Disembarkment of more troops at Alhucenas bay was held up today by the violent squall winds, but it was reported that the disembarked troops have enough food and supplies for several days without additional aid from the French and Spanish militia.

Although the Jeballa tribesmen have reassembled their forces after the defeat at Ben Karich, the Spanish under General Nouvilas in the Regala sector near the international zone, were standing off the counter attacks.

JURY EXPECTED TO GET GEORGE BRANDT WILL CASE FRIDAY

Jury in Common Pleas Court hearing the will suit of Herman Volkenand and others against George E. Ferguson, as executor of the will, and others, will decide if the late George Brandt, Beavercreek Township farmer was mentally deranged when he executed his will leaving his estate valued at \$25,000 to friends in Beavercreek Township and Xenia.

The trial opened Tuesday with the selection of a jury. But the case is not expected to go to the jury before Friday. The plaintiffs had not exhausted their witness list Thursday. Volkenand and others, a number of whom are residents of Germany, claim to be legal heirs of Brandt and are seeking to set aside the will by which they do not benefit.

The will was drawn in June, 1922 and Dr. George Ferguson was appointed guardian in October, 1922. George Brandt died, a widower in 1924.

POLICEMEN MADE DEFENDANTS IN SUIT

Patrolmen Henry Adams and Will Gray, of the Wilmington Police Department, are made defendants in two suits for \$1,000 damages each, instituted in Clinton County Common Pleas Court this week by Mrs. Phoebe Mann, Wilmington, through her attorney, Joseph M. Brandt.

Mrs. Mann claims damages on the allegation that August 6 the two officers imprisoned her for sixteen hours in the Clinton County jail, on a "pretended charge of fleeing from justice." She claims she has since failed to obtain employment.

FIRE PREVENTION.

INSURANCE companies, state insurance departments, city governments and large private industries all co-operate to prevent the destruction of property by fire.

As the largest corporation employ legal talent to prevent litigation, so the insurance companies employ experts in fire prevention campaigns.

Active fire prevention work was not taken up systematically in this country until about 1915. At first many property owners resisted having inspectors visit their homes, basements and office buildings to point out fire hazards and suggest changes.

The first idea was that since insurance companies collected premiums on risks to pay the losses, let the buildings burn and put new money into circulation to employ more labor.

They overlook the fact that every dollar of fire loss had to be collected first from the public, and the more fires the higher insurance rates.

Cities that put on fire prevention campaigns cut fire losses that averaged from \$2 to \$11 per capita annually to about 90 cents per capita.

The fire loss last year in the United States was about \$548,000,000, and about 16,000 lives. There is still room for fire prevention. Where it is not undertaken voluntarily, it should be made compulsory.

MENACE TO HYPOCRISY.

AN Italian scientist claims to have captured via radio the commotions of the brain. It may have been static he heard over his receiving set, but if they were really thought waves he heard the world will soon be tuning-in on everybody's innermost meditations.

The idea of thought receiving sets seems perfectly in keeping with the present-day trend. It is but a step from income tax publicity to the thought radio and people are as much entitled to the private thoughts of others as "Paul Pry" governmental bureaus are entitled to a knowledge of the private affairs of citizens and corporations.

Persons afflicted with defective hearing are commonly sensitive about using visible earphones, many of them choosing to hear less rather than to carry such appliances. One wonders if as much modesty will be displayed in the use of the thought radio if and when it is perfected. Of course there would be some of the busybody meddlers who would never be without such a set, though it had to be worn unconcealed upon the chest.

Some instrument for the tapping of the thought waves (supposing for the moment that thought travels in waves) might be put to some good and honorable uses. There comes to mind its possible use as gifts by those who are too timid to express their real thoughts, by the inveterate buyer of wildcat stocks, by the audience of the political orator and other mountebank, by newspaper reporters during difficult interviews and by the police and courts.

Application of the thought radio to the biblical axiom, "As a man thinketh so is he," would throw the ranks of the hypocrites into confusion and forever end hypocrisy.

USELESS PUBLICITY.

IT is quite generally agreed that this will be, and should be, the last year publicity will be given to income tax returns. Most of the political experimenters responsible for this administrative betrayal of confidence are dear or cut out of office, or converted to rationalism, and neither Washington nor the nation wants the practice continued longer. President Coolidge has already recommended the repeal of the publicity provision of the income tax law and if congress should prove reluctant it will be another case of The People and Mr. Coolidge vs. Congress.

Income tax publicity was intended to prevent evasion of the income tax. There is no record that it has disclosed any evasion, or that it has deterred anyone from attempting evasion. The bureau of internal revenue denies that publicity has been of any service to in the collection of income taxes but cites instances where it has been a hindrance.

All that can be said for the publicity provisions is that they pandered to idle inquisitiveness, encouraged the "Paul Pry" and the spreader of vicious insinuation, and annoyed or embarrassed hundreds of thousands of men and women.

After all the bare amount of tax paid by an individual means little. No income can be accurately measured without a study of the exemptions and deductions of the detailed return of the taxpayer. This is a fact well known to every income of the tax payer.

The government should not augment the temptations of those incapable of restraining their curiosity.

THE BUTTERFLY DISCUSSES EVOLUTION

"In a very recent age," said a wise and serious sage to butterfly with wings of golden flame.

"You were not so fair to see. You've a horrid ancestry, from a crawling caterpillar stock you came."

"Now you proudly spread your wings. And you feed on dainty things. You are beautiful to look at, but I

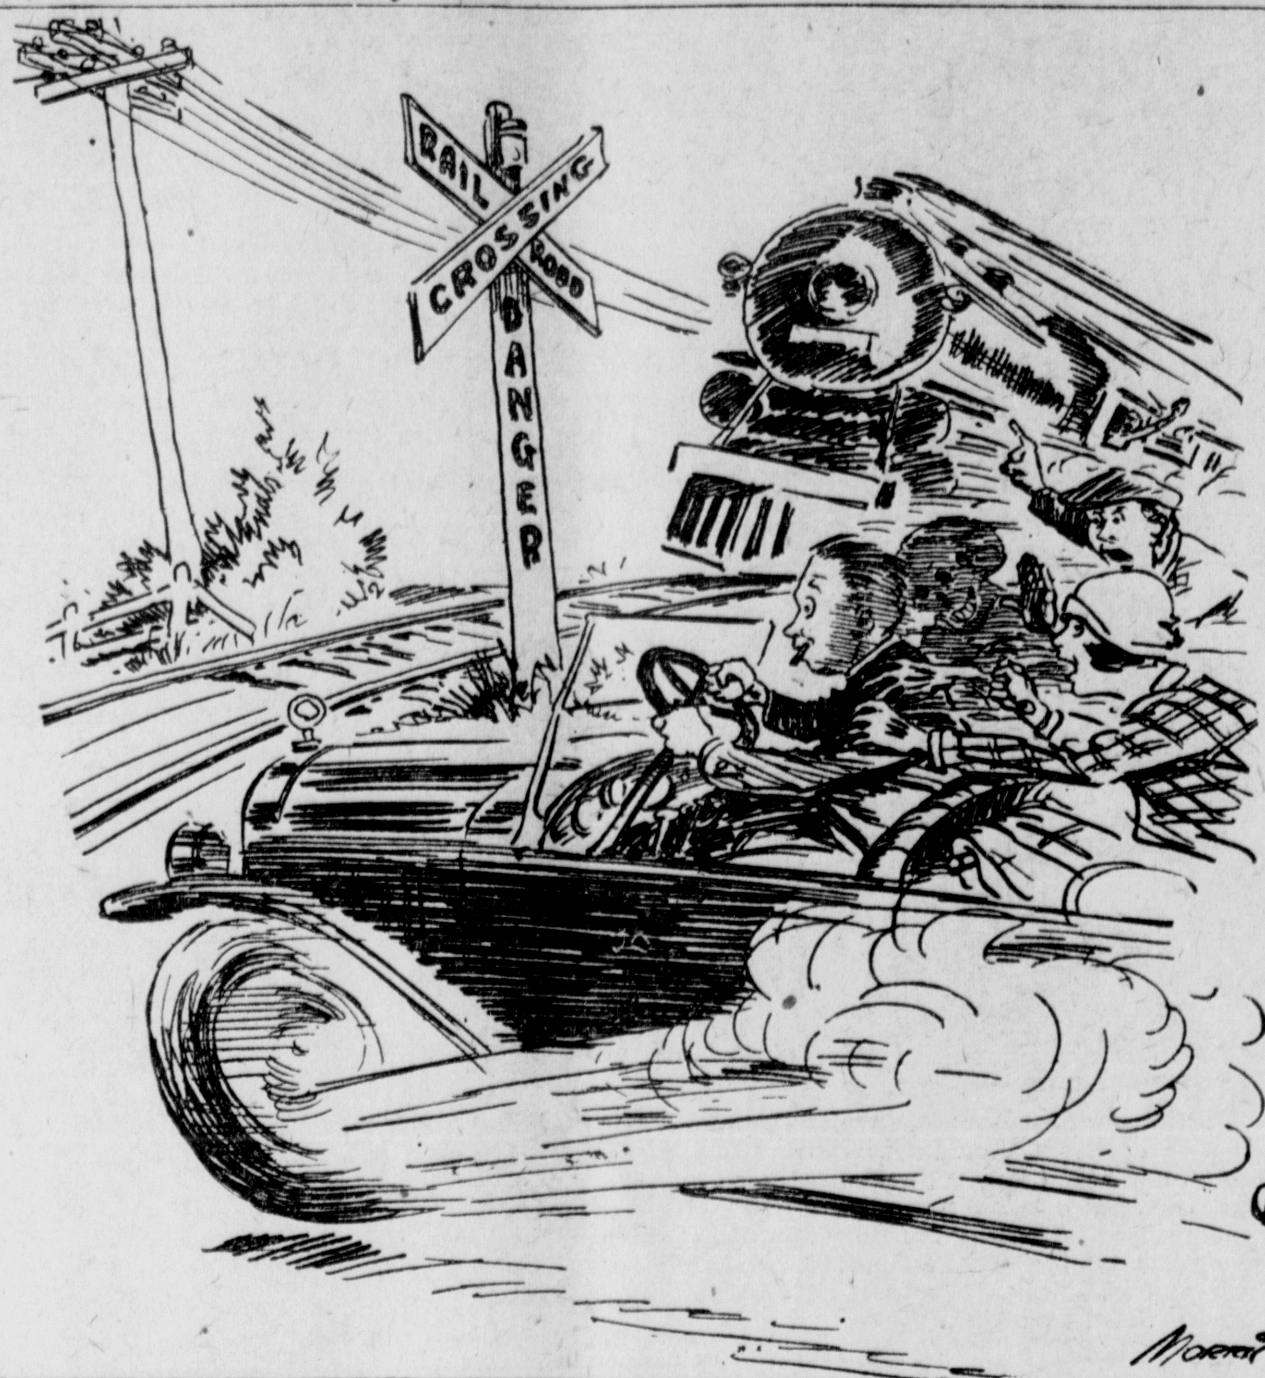

shrug. My shoulders with disdain. When I think how very plain you must have been when you were but a slug."

Said the butterfly: "I know in some distant long ago I was lowly as could be. But what's that to you or me? I am certainly a butterfly today!"

"As a caterpillar slow I could never guess or know what my purpose was while crawling on the bough."

But I stretch my wings and fly. And you surely can't deny. That I am a lovely butterfly right now!"

"STEP ON IT, KID! YOU CAN MAKE IT!"

Now is the time to begin that plaid scarf and close hat which your high-school daughter will want, later on, for skating. Buy ten balls of brown angora wool and six balls of buff angora. Use a number four bone crochet hook.

Scarf: Using the buff color, chain 48 and on this chain work two rows of 47 single crochet each, fastening in the brown at beginning of first row and always carrying it along inside of the buff yarn stitches. Rows should be nine and one-half inches wide. Row Three: Turn, ch. one, * with buff work two S. C., carrying brown yarn along inside and working off loops of second S. C. with the brown yarn. With brown make seven S. C., carrying buff yarn along inside and finishing last S. C. with

brown. Repeat from * across row. There should be five buff sections in row, with two S. C. with buff at end. Repeat third row six times, making seven block rows in all. Repeat from beginning of first row of work till scarf is 58 inches long, ending with two buff rows. Make seven rows all brown, carrying the buff along inside, and fasten off. Go back to starting ch. of scarf and along other side of it make seven rows with buff to correspond with other end.

Hat: With buff, chain 75 and work as instructed for scarf, having eight blocks in width, till two buff rows after fourth series of blocks have been worked. Fasten off. Finished piece should be 16 inches wide and eight and one-half inches long. This is for center part of hat. Make side pieces as follows: With brown chain two; in chain first make work seven S. C. Work round and round, increasing as necessary to keep work round and flat, till crochet is four inches in diameter. Fasten off. Make a second piece in same way.

Now measure off two and one-half inches around edge of one of the side pieces, and along remainder of same edge, sew one edge of center to part of hat, gathering in fullness evenly. Sew other side piece to other edge in same way. For turnover use brown.

If You Tire Easily—Beware of Chronic Fatigue

Thousands are victims of chronic fatigue—and do not know it.

If you tire easily, feel "all-in" at night, and wake up unrefreshed in the morning—if you are always weak, nervous, headachy, etc.—nine chances out of ten the real cause is chronic fatigue.

Ordinary fatigue—the kind you feel after hard work, etc.—is normal. That's nothing to worry about. But chronic fatigue comes from within. Your nerves, muscles, etc., have become debilitated and cannot function properly.

To conquer it you must get at its cause—in the blood. For it is when your blood is thin and pale, lacking in sufficient iron, that you become run-down, and are a victim of chronic fatigue.

What you need is to strengthen your system by getting more iron in your blood. Don't take the older mineral iron medicines which many doctors now say do little good. Take organic iron—Nuxated Iron—which is like the iron in your own blood. Unlike ordinary mineral iron it does not injure the teeth or upset the stomach, but is promptly assimilated. Take Nuxated Iron for just 2 weeks and you'll be astonished how it begins to revitalize you and gives you new strength and endurance. Money back if not improved. At all good druggists.

THINGS TO COMPLETE

WHISPERING HUMAN THINGS INTO OUR EARS.

I was in a magnificent home recently. I think it was the most gorgeous home that I have ever visited. I say "home" but it really wasn't a home at all. It was just something that a rich man had built.

It was complete in every respect from the swimming pool, the music room with its great pipe organ, to parlors, imitation library and breakfast room overlooking a lovely lake.

I contrasted this place with one I had visited a little while before where two people lived in a small apartment, where many of the needed articles of furnishings were not lacking but where there were many things to be added.

The first place had no "wants" to add to its completeness. The second place teemed with them.

And, after all, it's the wants that keep leading us on and which defeat our false pride and which keep

us on which all our energies and wits must be concentrated, that its attainment may come about.

But nothing must get too complete or too satisfactory. That would put out the divine fire inside of us.

The most interesting people in this world are the dissatisfied ones. Not the disgruntled, but the honestly hopeful lost folks who know where they want to go but are in doubt as to the right road and are not afraid to ask the way.

I am careful of making friends with those who are too successful.

MOORE'S ALMANAC PREDICTS YEAR OF VIOLENCE FOR ISLE

London, Sept. 17.—Nineteen-twenty-six holds an agonizing hot time in store for England, if the predictions of "Old Moore's Almanac," a yearly English publication which seeks to foretell future events by the medium of the solar regions, are to be taken as Gospel.

"Old Moore" besides being a hardy animal, is an institution in English life, and many people, especially those of the middle and lower classes pin their faith in his predictions to an amazing extent.

For 1926 the Old Man foresees a terrible state of affairs in England. In fact, he has no hesitation in stating that it will be the worst ever. In a foreword to his "Almanac," he announces "that the reader will experience feelings of wonderment and amazement as the forecasts for 1926 are laid bare to him," and concludes with the assertion that 1926 "will test the patience and the temper of myriads of human souls, inasmuch as a Red Revolution and another World War are in store."

DETAILS THE RUIN.
Having thoroughly whetted the appetites of his prospective readers, the Old Man then proceeds to give month by month, the details of this riot of red ruin. Agony is piled upon agony with a lavish hand, and when it is considered that, complete with illustrations, the book sells for only four cents, the value is simply remarkable, inasmuch as it beats the world's best sellers and thrillers by streets.

"License, lawlessness, self-indulgence, rioting, debauchery, improvidence, murder, theft, and violence will attend the losing of the unhindered passions of a perverted and godless generation," "Old Moore" thunders in his opening sentences. "The sickle is put to the reaping," he melodramatically continues, "and by one means and another the world generally will become so decimated during the ensuing four years that nothing short of Divine intervention will save it from self-destruction."

With this mass of words off his chest, the Old Man then gets down to brass tacks and shows what a terrible prospect the world has in store. "The year will open," he prophesies, "with comparative calmness and will work up to a climax."

In January there will be bitter weather in the first week, "and," sagely remarks the Old Man, "the weak-chested should take extra precaution." Seen in the light of cold, hard, facts, this is not such a stunning prediction as one would think, for the flat-racing season in England opens in this month.

FORECASTS FLOODS.
The Old Man apparently has blacksmiths in mind for April, for he says "some speculator will carry a lucky horseshoe this month." May, June, and July are not so exciting, but for August he prophesies a month of war alarms, of great storms and floods.

Hereabouts the stars must have gone wrong, for "Old Moore," forgetting that the courts are adjourned during this month, states "that a notable case will occur in the divorce courts, affecting the artistic world."

From August onwards he promises practically everything not wanted, with famines, storms, wars, revolutions, and riots galore, winding up with a terrific climax in December.

WANTED CURLS BUT RECEIVES TROUBLE

Fort Worth, Sept. 16.—Bound hand and foot, a sobbing seventeen-year-old blonde, bobbed and pretty, was carried into the office of the District Attorney here recently by a police officer. Following her were her mother and younger brother.

The girl told the officers her mother had whipped her because she wanted to get a permanent wave put in her hair. The mother denied this was the cause, saying she had punished the girl for disobedience. The mother was placed under technical arrest when neighbors complained she was "flogging her daughter unmercifully."

The case was turned over to the County Grand Jury for investigation. The mother declared she loved her children, and it was because she wanted to raise her daughter in the right manner that she had whipped her. The brother came to his mother's assistance and helped tie his sister's hands and feet when she objected to being punished.

WELL ONE DAY IN BED THREE

That Was the Life of Mrs. Hollister Until she Began Taking Lydia E. Pinkham's Vegetable Compound

Wyandotte, Michigan. — "After my baby was born I did not do my own work for six months and could hardly take the care of my own baby. I always had a pain in my right side and it was so bad I was getting round shoulders. I would feel well one day and then feel so bad for three or four days that I would be in bed. One Sunday my mother came to see how I was, and she said a friend told her to tell me to try Lydia E. Pinkham's Vegetable Compound. So the next day I got a bottle and before I was half taken I got relief. After I was well again I went to the doctor and he asked me how I was getting along. I told him I was taking Lydia E. Pinkham's Vegetable Compound, and he said it did not hurt anyone to take it. I am always recommending the Vegetable Compound to others and I always have a bottle of it on hand." — Mrs. HENRY HOLLISTER, R. F. D. No. 1, Box 7, Wyandotte, Mich.

SATURATION POINT OF PROGRESS IS NOT REACHED SAYS FESS

Senator Simeon D. Fess, of Yellow Springs, addressing more than 2,000 delegates and visitors to the eighth annual conference of Kiwanis clubs of the Ohio District at the governor's dinner at Memorial Hall, Dayton Wednesday night, played all persons who insist "the world has reached the end of its rope as far as progress is concerned."

The "saturation point" has not yet been reached, it was pointed out by Senator Fess, who declared the workers of the world are looked upon by civilization to continue progress.

"The nation, the world, is not living in a spasm of activity but is continuing to progress at the same rate it has during the past few years. It will continue to advance for many years to come; perhaps for as long as the

SOCIAL SEASON IN LONDON WILL SOON BE IN FULL SWING

London, Sept. 17.—London's fall social season is scheduled to start the third week in September. Two weeks later it will be in full swing when the Prince of Wales arrives home from his Dominion and foreign tours.

King George and Queen Mary will be back at Buckingham Palace, from Balmoral Castle by that time to give the heir to the British throne the literal "royal welcome."

What is likely to give the season a really brilliant start will be the return to London of H. H. the Maharajah of Patiala, the enormously rich and popular Indian Prince who recently set the whole country talking about his magnificent mode of living at the Savoy where he stayed for a month with a suite of fifty persons.

He has now gone to Geneva on a political mission, but he is coming back at the end of September for a month or two of social joys and relaxations in the city by the Thames.

WILHELMINA EXPECTED
The Queen of the Netherlands is to visit London when the King and Queen return from the North. She will remain for about two weeks.

It is many years since she visited England, as she travels very little, and her visit on this occasion will be purely an unofficial and informal one.

The Prince of Wales will probably be deputed to meet Queen Wilhelmina—one of his first official engagements after his return.

Since she has been in Scotland this year it is understood Queen Mary has purchased \$20,000 worth of antiques, mostly in Edinburgh.

Strange to say, despite her numerous purchases visitors to her private rooms at Buckingham Palace see extraordinarily few antiques, though there are vast quantities of china. Many of her purchases go as Christmas and birthday presents while the remainder are "dumped" in Windsor Castle.

It is said that the Queen is an excellent judge of values and has never once purchased a "faked" antique.

TANGO IN FAVOR
All London is now taking tango lessons, for the tango is to be the dance of the Winter. Already the famous Canaro Tango Band, with Rosa Canaro, the Spanish singer is on its way from Buenos Aires to make cosmopolitan London succumb to its insidious rhythm.

With the tango will come tango dresses—longer and wider skirts heavily bound with fur to suggest movement. Waists, however, will be lower than ever and the upper part of the corsege will still cling to the figure, only the lower part of the gown being of inordinate fullness.

There has been a definite attempt to introduce the "Charleston." Its rhythm has been found too jerky for some English and cosmopolitan dancers, who prefer the swift slinking glide of the fox-trot or the sensuous rhythm of the tango.

IRISH DOCTORS TO OPPOSE REGISTER PLAN OF FREE STATE

Dublin, Sept. 17.—President Cosgrave's attempt to establish an Irish Medical Register is most unpopular with the medical profession in the Free State. Objection after objection is being raised, but President Cosgrave remains adamant.

Under the present arrangements the doctor qualified in Ireland enjoys the same privileges as the English or Scottish doctor. He registers with the General Medical Association with headquarters in London, claims that this is undignified for a Free State doctor to register as a Briton and he proposes to establish a register of his own.

He also claims that every doctor trained and qualified in Ireland costs the Free State \$5,000 and it is unfair to the country that pays that money to see their doctors leave the country in hundreds to take up positions in the British Navy, Army and Air Force, leaving the Free State destitute of their services.

The Ulster doctor remains as heretofore. It is feared that many young medical students will cross the border to qualify in order to get a British registration. The question is to be discussed when the Dail meets.

NEW DISCOVERY DISSOLVES FRECKLES

Gone In 4 Days

Here's a new and inexpensive cream called Flyte that is easy to apply—will not stain—yet after you've used it for four days your freckles are all gone—simply melted away.

Women have waited long for a real freckle remover and now they can obtain it at Sayre & Hemphill's or any live up-to-date druggist anywhere with the distinct understanding that if it fails your money will be returned.

And after your freckles are gone you'll find that your skin has improved—it will be cleaner, clearer and more youthful looking. Ask for a jar of Flyte.

Nerves All Unstrung?

Xenia Folks Should Find the Cause and Correct It.

Are you all worn out? Feel tired, nervous, half-sick? Do you have a constant backache; sharp twinges of pain, too, with dizzy spells and annoying urinary disorders? Then there's cause for worry and more cause to give your weakened kidneys prompt help. Use Doan's Pills—a stimulant diuretic to the kidneys.

Xenia folks recommend Doan's for just such troubles.

Mrs. Woodrow C. Warner, 225 E. Third St., Xenia, says: "When I stooped, I got sharp stabs of pain through my back and my back often felt so cramped, I could hardly move at times. Mornings my back and shoulders felt as stiff as a board. I was tired and weak and became dizzy. I also had severe nervous spells. My kidneys acted irregularly also. Doan's Pills relieved the trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Warner had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

PARTEURIZED MILK

THE ONLY SAFE MILK

It has been proved that even high grade raw milk is not safe milk. Long experience has shown that it is IMPOSSIBLE TO HAVE ABSOLUTELY PURE MILK WITHOUT PASTEURIZATION. The most rigid precautions that can be taken will not assure freedom from germs if raw milk—one of the easiest germ carriers—is used.

Pasteurized Milk Is Germless

High grade milk properly pasteurized is a germless milk. Just as the boiling of infected water purifies the water so the boiling or "pasteurizing" of milk destroys the germs and makes the milk absolutely pure without in the least diminishing its nourishing qualities or changing its fresh, sweet flavor.

NEWEST FALL FABRICS

Autumn, to be quickly followed by winter, is nary. Each season fashion tends toward style expression in fabric more than in line. Each season the fabrics appear more individual in their charms, more varied in their characterful textures, more unusual and comprehensive in their designs, richer in their color blending.

It is with these new silk and wool fabrics that the mode creates the fashions for Fall, 1925. So varied are they, so rich and colorful that there is inspiration for the most attractive new styles. Now is splendid time to choose so that the wardrobe may be in readiness for the new season.

Very soft and supple are these weaves—some woven in an effect of checks of the same color as the materials. The texture of these fabrics is very well adapted to the flared or draped lines of the new styles.

Satin Crepe is very much favored for the silk frocks for Autumn. Satin finds important place as well. There is much importance attached to brocaded crepe. All may be chosen here at moderate prices. Every light and dark color fashion approves is here.

Alarm Fetches Firemen—Ohio Cotton Makes Its Debut

Defiance, O., Sept. 17.—The man at Youngstown, Ohio, who grew a small cotton crop in his back yard, has nothing on H. L. Stock, of Defiance.

Stock picked up some cotton seeds three years ago while loading a car at the Defiance Screw Machine Products Company. He kept them at home as a curiosity until last spring. Then he planted them in his backyard.

Today Stock has several cotton plants in full bloom. He believes he will be able to pick some cotton when the bolls burst.

Mansfield, Ohio, Sept. 17.—When the telephone rang at the fire department here, the fire chief hurried to answer it. No doubt it was an alarm.

A feminine voice assailed his ears. "Where's the fire?" asked he. The woman gave an address on Longview Avenue.

When the firemen got there, they were met by the woman. "Why, it isn't exactly a fire," she admitted. "But the cellar is full of water and I haven't any one to pump it out."

Akron, O., Sept. 17.—Hard luck is camping on the trail of Howard L. Weaver, blind attorney.

First he lost his eyesight, then an arm was amputated when he fell beneath a streetcar.

Today Weaver bemoaned the loss of a purse containing \$202 in cash.

Mark, O., Sept. 17.—How's this for a bumper oats yield?

Floyd Kinzer, tenant on a 9 1/2 acre farm northeast of here, harvested 878 bushels of oats from his tract. That's an average of 92 1/2 bushels an acre.

RED CROSS APPEALS FOR SWEATERS FOR MEN IN HOSPITALS

The American Red Cross is conducting the first national campaign it has ever undertaken solely for the ex-service men. The campaign is not for money, but for 30,000 sweaters needed by the men still in hospitals under treatment for disabilities.

During the war, Red Cross knitters turned out many thousands of warm sweaters for men at arms. After the armistice, it was found disabled men in the government hospitals still had need of sweaters, for they are one of the few articles not furnished by the government. Year after year, the Red Cross has been drawing on surplus war supplies and thousands of veterans have looked to the Red Cross to fulfill this obligation. The Red Cross stock of war sweaters will be entirely exhausted within the next few months.

Red Cross workers at government hospitals attest the want of sweaters and many pathetic instances of this nature are encountered almost daily. In some sections a majority of the men arriving for hospitalization apply for admission with only the few clothes they wear. With the first cold weather, they suffer unless adequately clad. Many of the men who need the sweaters wear decorations for distinguished conduct from the United States and foreign service.

The Greene County Red Cross, through the secretary, Mrs. Sara H. Roberson is appealing to all who are willing to render this service, either in the donation of yarn or in donating service to the knitting of sweaters. A quota has been set for Greene County, according to Mrs. Roberson.

Anyone desiring to offer her services is asked to call the Red Cross Office, Phone 923. Anyone not able to knit is asked to donate to the purchase of the wool for the sweaters. Early Thursday morning a local woman called Red Cross headquarters and offered the services of the women of her neighborhood in knitting.

FARM BUREAU BOARD EXPECTS TO RETAIN NEW COUNTY AGENT

Another effort to obtain a successor to Ford S. Prince as agricultural agent for Greene County will be made by the executive committee of the County Farm Bureau, Thursday night in the assembly room of the Court House.

Mr. Eastwood, supervisor of county agents for the southwest Ohio district will be present. Several candidates have entered the field for the position since the resignation of Mr. Prince last spring.

Among candidates to be considered are Mr. Wallace, Ross County, Mr. Reed, Guernsey County, O. Z. Remsburg, Madison, Minn., Mr. Wheeler, Holmes County and Mr. Johnson of Indiana.

Final selection for the county office is expected as a result of the meeting.

Members of the executive committee will discuss the suggested formation of a Poultry Association composed of poultry raisers in Greene, Clinton, Fayette, Montgomery and Warren Counties. Headquarters of the association, as planned would be in Wilmington.

Purpose of the association would be direct marketing of eggs and poultry to the New York markets and educating poultry raisers to obtain best prices for their produce through correct up-to-date methods.

GRAND JURY WILL MEET OCTOBER 5

The October term of Greene County Common Pleas Court opens Monday October 5, the date set for the grand jury to convene. The petit jury will convene in Common Pleas Court, October 6.

Names of the various prospective jurors will be drawn from the jury wheel the last of this week, it is announced.

Only four criminal cases are scheduled to be considered by the grand jury. State's evidence in these cases is being prepared by Prosecuting Attorney J. Carl Marshall.

Miss Loretta Richards of this city, has taken a position on the faculty of the Clyde, O., High School, as teacher of Latin and English.

Mr. Marshall Best has been spending a few days at his home here and will return Friday to the University of Cincinnati to resume his duties in the medical college. He spent the summer working at the Cincinnati General Hospital.

MODISH MITZI—Not At All A Simple Matter

By JAY V. JAY

Mitzi has a serious task today. Time was, when buying gloves was a simple matter. It isn't so any longer. Gloves are all colors and many different styles. Mitzi is going to give them the attention they deserve.

A cuff is almost certain, but it may be turned back over the hand or it may flare out over the wrist. The glove itself is very short and no one who has a pretty wrist will find anything in that to which to object.

Colored leathers combined with neatly fashionable. You can see fit new hand coverings look like. Embroidery. Our friends, the French, who responsible for the glove in the cor glove that has come from Paris this buckle on a strap.

silk or velvet or ribbon are emblem the sketches just what these oldery is good, too, and gilding as are thorough in all their fashions are ner which is by all odds the shortest season. It has no cuff at all—just a

To All Who Suffer Stomach Agony, Gas and Indigestion

Money Back If One Bottle of Dare's Mentha-Pepsin Doesn't Do You More Good Than Anything You Ever Used

You can be so distressed with gas and fullness and bloating that you think your heart is going to stop beating.

Your stomach may be so distended that your breathing is short and raspy.

You think perhaps you are suffocating.

You are dizzy and pray for quick relief—what's to be done?

Just one dessertspoonful of Dare's Mentha-Pepsin and in ten minutes the gas disappears, the pressing on the heart ceases and you can breathe again naturally.

Oh! What blessed relief, but why get rid of such attacks altogether? Why have chronic indigestion at

With this wonderful medicine you can banish indigestion or dyspepsia, catarrh of stomach or any abnormal condition that keeps the stomach in constant rebellion and one bottle will prove it.

And how happy you will be when your stomach is as good as new for then dizziness, nervousness, sleeplessness, headache, dull eyes and other ailments caused by a disordered stomach will disappear and you will be your old happy, contented self again. Sohn's Drug Store and every regular pharmacist guarantees one bottle of Dare's Mentha-Pepsin to show the way to stomach comfort.

Over 6,000,000 bottles sold in one small New Jersey town last year—ask yourself why?

HAMILTON TAKES PICTURE OF SARANAC INN FROM SEAPLANE

R. Hayes Hamilton, Xenia travelogue lecturer, has just made a photograph from the air of the New Saranac Inn, Upper Saranac, N. Y., in the Adirondacks.

The photograph was made September 1 from a seaplane and has been copyrighted by Mr. Hamilton and will be added to his collection for his lecture purposes.

Mr. Hamilton has been located at the Inn for the last ten summers and has been instrumental in locating Thomas Hollencamp and Arthur Currie, Xenians, there for the last three years. Don Currie, this city was golf professional this summer at the Saranac Inn and Miss Marian Lane and Miss Alba Junk, former Xenia school teachers, have just returned from their second summer as managers of the Saranac Inn Tea Room.

BOY SCOUT RATTLER IS RATTLING GOOD PAPER IT CONFESSES

"The Rattler," a two page paper published weekly by "The Royal Order of Snakes," in the interest of better Scouting, was established three weeks ago by Troops No. 1 and 2, Boy Scouts of America in Xenia.

As its name implies, it is a "rattling good paper," and may become an institution in local Scouting circles. The front page design depicting a rattlesnake and camp fire, was con-

I Rise To Remark!

Now that the famous Studebaker trial in which Bill Clemmons, the real estate man, was convicted by a Court of Inquiry of being possessed of a grip so potent that it wore through his steering wheel after he had driven his Studebaker only 125,000 miles, it seems that I NOW may have a chance to bust in here on this page with a small bouquet of kindly words about John N. Willys, who to my mind is one of the most amazing personalities in the entire automobile world.

In 1920 John N. Willys was just \$20,000,000 in the hole and NOW in 1925—only 5 years later—his company will show profits exceeding \$20,000,000! From a balance sheet deficit of \$43,000,000 to a Profit and Loss surplus of more than \$16,000,000,—How's THAT for a come-back?

He didn't perform this miracle unaided and alone although it was his tireless indomitable enthusiasm that changed an apparently lost battle into a wondrous victory. He was surrounded by men of big calibre and hardboiled courage, who saw in John N. Willys a leader worth while and life size.

And THAT'S the sort of MAN and MEN who TODAY make up the Willys-Overland Organization! Men of this kidney do NOT back failures, do NOT skimp manufacturing processes, do NOT put a product before the American public which is in any particular SECOND CLASS.

Men like John N. Willys give a feeling of satisfaction of ACTUAL comfort to those who ride in the cars this strong headed organization is turning out and selling at the rate of 300,000 per year!

Wm. B. McCallister.

An Agreement

We, the undersigned, having read the remarks on John Willys written by Wm. B. McCallister and having duly investigated the statements made and found them to be facts and the truth and

Shanty Says:-

I see where I have a lot in common with John N. Willys. While I TRIED to get in debt \$20,000,000 it didn't work very good, me being able to get back only a couple of weeks on a land lady once a couple years ago. What gets my goat though is to see Mack go and PUBLISH here in the paper how much John N. owed. I can't see where it's anyone's business around THIS place if John's got big enuf to get \$20,000,000 worth of "tick." Course I grant it's some stunt to put over all right. I don't think anyone could pull stuff like that here in Xenia.

Does Your husband expect this too?

The average husband wants his wife to keep her prettiness and charm. And, at the same time, he wants her to look out for his comfort and cook three meals every day. No small order, but it can be filled if wives put their housekeeping on a scientific basis.

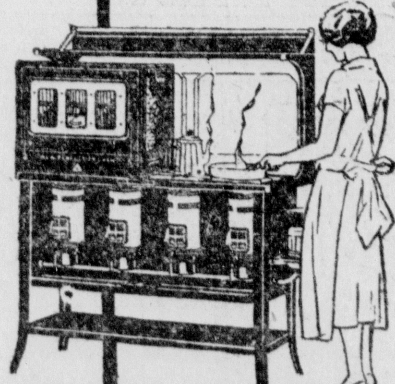

The logical place to begin labor saving is in the kitchen—at the stove. Perfection Stoves are designed for women's convenience. They burn kerosene, the safe, household fuel, so there is no laborious hauling of coal and ashes.

Their roomy cooking surface is at the most convenient height, 32 inches from the floor, just like a kitchen table.

Every drop of oil is completely burned before the heat reaches the utensils, so there is no soot to blacken kettle bottoms. You are spared strenuous scouring.

These are just a few of Perfection's convenience features. Any dealer will demonstrate many more. Get a Perfection. It can help you live up to your husband's expectations.
